Application Number	10/860,664	
Filing Date	June 4, 2004	
Art Unit	2673	
Examiner Name	Anthony Blackman	
<p>I hereby declare that:</p> <p>Every error in the patent which was corrected in the present reissue application, and which is not covered by the prior oath(s) and/or declaration(s) submitted in this application, arose without any deceptive intention on the part of the applicant.</p> <p>Claim 10 of U.S. Patent No. 6,037,925 recites that "converting said first display signal of serial format into said second display signal of parallel format, when said comparing step determines that there is a difference between said first and said second resolution signals." Claim 10 is too narrow because serial format of the first display signal and the parallel format of the second display signal are not necessary to carry out the invention, and are only exemplary.</p> <p>I hereby declare that all statements made herein of my/our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.</p>
